De Soto Village Residents,

In an emergency, our Fire Fighters and First Responders depend on clear, visible address signage on your residence. Since they have experienced some issues in the recent past with unreadable or difficult to find address and fire signs, we have put together suggestions for all village residents and ask that everyone check the condition of their signage and repair, refurbish, or replace them as necessary.

1. Be sure the sign is clearly visible from the street.
2. Use of 4" high, reflective numbers is recommended.
3. Mounting on a lamp or mailbox post, stone or brick entry column is acceptable if clearly visible from the street.
4. For placement on a home, mount the sign between 4½ and 6 feet above the entry level floor. Mounting over a front-facing garage door is acceptable though not ideal.
5. Traditional placement for address signs is to the right of the front door.

Thank you for enhancing your safety and that of your neighbors!

Respectfully,

Village President Joel Greiner

De Soto Fire Chief Chris Mussatti
